Missouri Tigers Defeat Ames, 17 to 14.

Columbia, Mo., October 16.—The Missouri Tigers defeated the Ames eleven Saturday by a score of 17 to 14, winning their first Valley Conference football game and adding a third victory to their record of no defeats.

The first quarter began badly for the Tigers. Ames kicked off and Missouri fumbled. The ball was held in Missouri territory by the Ames delegation and, when the Tigers tried to kick out of danger and muffed a pass from center, an Iowa man fell on the ball for a touchdown as it rolled behind Missouri's goal. Ames kicked goal and the score was 7 to 0.

The Tigers played better in the second quarter, but failed to score. They held the Ames team, however, and the quarter ended with neither side scoring.

At the opening of the third quarter, the Tigers showed a new spirit and made several good gains. In trying to receive a punt Ames fumbled and the ball rolled over their goal line. Missouri recovered for a touchdown and kicked goal. A few minutes later a successful dropkick added three more points to the Missouri score. The score was 10 to 7.

Missouri blocked a kick in the fourth quarter, went over for a touchdown and kicked goal. Ames then resorted to forward passes and succeeded in scoring a touchdown. A successful kick made the score 17 to 14. Ames completed several long passes and carried the ball within a few yards of Missouri's goal. The game became intensely interesting at this point for it seemed certain that Ames would go over for another touchdown. This would have been disastrous, for Missouri would have had less than two minutes in which to score again. The Tigers showed their fighting spirit and held the line.

Short Course at U. of M.

Preparations have begun in the College of Agriculture of the University of Missouri for the Short Course which begins October 31.

The indications are that there will be a larger number of men taking the Short Course this year than ever before, according to A. A. Jeffry, Agricultural Editor. A larger percentage of former students have expressed their intention of completing the work than ever before, and more men have written this year about taking the course than last year.

Elmer H. White, County Supt. of Schools, left yesterday evening for California, Mo., where he will speak Friday morning to the teachers of Moniteau County in behalf of the advance enrollment in the Missouri State Teachers Association. He will return Friday evening.

Mr. and Mrs. Julian F. Clarke of Dover, Mo., spent Wednesday afternoon in Lexington.

Final details of the plan to issue a state-wide Farm Bureau newspaper are to be approved by the executive committee of the Missouri Farm Bureau Federation at a meeting that will be held Monday, October 24. It is expected that the first issue of the publication will be published about November 1.

The Busy Housewife.

The busy housewife who finds more things to do than she can crowd into a day's time should find our half finished family wash plan a great help. What we mean by half finished is, all washed nice and clean, and half of the wash is ironed. This leaves only a few starched pieces to iron at home. Think of the many things you could do while you would be ironing big table linens, sheets, etc. These with all other flat pieces are ironed ready to use. Its a mighty good service. Try it.

Why Not?

When the Lexington High School football team played in Higginsville on the afternoon of September 30th, the business men of that city locked their places of business and went to the game to hoop'er up for the home boys. Friday of this week the Higginsville team plays a return game in Lexington, and wouldn't it be a nice compliment to the Lexington team if the business men would lock up and attend the game. The Lexington team, and the school authorities would appreciate it.

An Old Fault Finder.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels. Adv.

Mr. and Mrs. P. J. Carroll and infant daughter, Vivian, of West Baden, N. J., have arrived to spend the winter here with Mr. Carroll's mother, Mrs. Winifred Carroll.

The Best Physic.

When you want a pleasant physic try Chamberlain's Tablets. The are easy to take and mild and gentle in effect. They are highly prized by people who have become acquainted with their good qualities. They only cost a quarter. Adv.

Making Extraordinary Mileage a Certainty -

Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.

Read Letters Below—**Records from 29,000 to 57,000 Miles**

Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 30,000 or 50,000 miles are frequent and consistent records.

Now and then they are emphasized by unusual instances such as quoted below. Performances like these demonstrate the ultimate possibilities of Firestone Cords under careful driving.

Sept. 16, 1921
Firestone Tire & Rubber Co., Jacksonville Branch, Jacksonville, Florida.

I submit herewith the history of a 1924 Firestone Cord tire. This tire has run 17,000 miles. I have retreaded it seven times. The average mileage to each retreading was about 2,500. I think you will agree this is a remarkable record. It is especially unusual as I know the owner to be a severe driver. However, he gives his tires proper inflation. The tire in question is not yet out of service and has every indication of being sufficiently strong for another retread. I am enclosing photographs of the separate covers.

C. U. Fenny, Plant City, Fla.

Sept. 2, 1921
The Harvey R. Mack Co., Portsmouth & Harmon Place, Minneapolis.

It occurs to me that you might be interested in the mileage that I obtained from the set of Firestone Cord tires on my Dodge coupe. The first tire went over 30,000 miles. The second tire rolled up a mileage of between 34,000 and 35,000. These were both rear tires and had been cut considerably by chaps. The two front tires have gone better than 34,000 miles and are still in good condition. I expect to get at least 40,000 miles from each of them. I need scarcely say that the Firestone Cord will be my tire choice for the future.
